UCEAP Semester Units 3.00

Course Description

This course introduces concepts and practical applications in multilingual education, allowing students to understand multilingually and to examine the characteristics of multilinguality that monolinguals cannot experience in general. The course will help students to recognize themselves as multilingual agents, to explore how to use languages, and to realize how this process affects their identities. Topics include language acquisition and multilingualism, multilingualism identity formation, language use and code-switching, technology and multilingual education, case studies, current research in the field, and practical applications. Assignments include case study analysis and designing a multilingual curriculum.
