Course Description

Tracing the history of beer from China in 7000 BCE, through to the impact of US federal law and European Union regulations, this course explores the determinants and drivers of the economics of beer. It includes an examination of the labor market and brewing, technology and innovation, national beer market trends, media and marketing of beer, new and emerging beer markets, cultural and political factors impacting the beer market, and the decline and rise of local, import, and craft beers.
