UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

The 2020s have seen the rise of numerous strategic problems for Australia. There are giant states in fierce competition, such as the United States and China, and emerging giants in India and Indonesia. There are also problems from below, such as climate change, artificial intelligence, cyber security, and terrorism. This course examines the security challenges facing Australia and explores how Australia should approach its region.
