UCEAP Subject Area(s) Art Studio
UCEAP Course Number 101
UCEAP Course Suffix
UCEAP Official Title TEXTILE DYEING
UCEAP Transcript Title TEXTILE DYEING
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course explores key concepts and principles of the techniques used to give textiles various colors. Dyeing is the process of imparting color to textiles using dyes or pigments, and it is the most efficient method for enhancing the marketability and aesthetic appeal of clothing products. Students will study the fundamentals of fiber science to understand the structure and characteristics of textiles and learn about the theory of dye chemistry to comprehend the properties and interactions of diverse chemical substances used in dyeing. Additionally, the course examines color theory to explore how textile dyeing can enhance product quality.
