4.50

**UCEAP Semester Units**

3.00

**Course Description**

This seminar provides students with a greater understanding of the scientific study of the politics of international economic relations, in particular the politics of trade. The course emphasizes seminal as well as cutting-edge academic scholarship on a number of substantive topics, incl. the distributional consequences of trade and domestic sources of trade policy, the design and evolution of global trade governance under the General Agreement on Tariffs and Trade and World Trade Organization, the politics of preferential trade agreements, as well as the relationship between trade, conflict, international investment, migration, and the global environment.
