UCEAP Transcript Title GER ARCH HIST THEOR
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course provides students with fundamental knowledge of the German architectural tradition through a historical survey of key buildings and urban spaces. Political, cultural, historical and technological factors are closely studied as influences on the process of design and final built forms. Throughout the course, representative architectural examples in Berlin are also studied. Students explore how the city is a particularly rich site to observe how numerous competing political visions and social movements influenced German architecture and urban development.
