Course Description

In this course, students identify the main historical phases in the development of Spanish, from its Latin roots to the modern language it is today. Students learn to appreciate the influence of the different language varieties which shared, or share with Spanish the geographical space of the Iberian Peninsula, on its linguistic structures. This course helps students recognize the role of the Castilian dialect as the basis of Modern Spanish, and defines the process of its standardization. Students will discuss the role of Spanish as the primary medium of Spanish colonization.
