THINKING DIGITALLY AND CULTURALLY

**UCEAP Transcript Title**

THINKING DIGITALLY

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

## Course Description

The cooperation of people from different disciplinary backgrounds is becoming increasingly important in developing knowledge and solutions in a complex world. This course explores how knowledge is created in and across disciplines, specifically by examining intersection between Computer Science and the disciplines of the Humanities commonly known as the Digital Humanities. It illustrates the potential benefits of and challenges to these interactions, by examining both emerging digital technologies and the traditional roots of cultural production such as language, historical records and institutions, and the arts.

### Language(s) of Instruction

English

### Host Institution Course Number

TEU00431

### Host Institution Course Title

THINKING DIGITALLY AND CULTURALLY
