COURSE DETAIL

LAND USE & SUSTAINABILITY
Country Ireland
Host Institution University College Dublin
Program(s) University College Dublin
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Environmental Studies
UCEAP Course Number 122
UCEAP Course Suffix
UCEAP Official Title LAND USE & SUSTAINABILITY
UCEAP Transcript Title LAND USE&SUSTAINABL
UCEAP Quarter Units 5.00
UCEAP Semester Units 3.30

Course Description

In this course, students explore the intersection between land use planning and environmental sustainability within the context of urban and rural development. Through a multidisciplinary approach, students study the principles, theories, and practical applications necessary for promoting sustainable land use practices in contemporary settings. The course explores the factors influencing land use patterns and methodologies to assess the environmental impacts of land use decisions, including climate change, biodiversity, and natural resource impacts. Through international case studies and policy reviews, students compare existing land use policies and develop strategies for integrating sustainability principles into land use planning, while exploring strategies to engage diverse stakeholders for equitable and inclusive decision making.
