GEOPHYSICS Country Korea, South **Host Institution** Seoul National University Program(s) Seoul National University **UCEAP Course Level Lower Division UCEAP Subject Area(s)** Earth & Space Sciences **UCEAP Course Number** 41 **UCEAP Course Suffix UCEAP Official Title GEOPHYSICS UCEAP Transcript Title GEOPHYSICS**

Course Description

This course introduces the basic theories of geophysics, such as the shape of the Earth, the Earth's gravitational field, the Earth's magnetic field, plate tectonic geodynamics, propagation of seismic waves, and the process of earthquake epicenters. Physical phenomena and conditions occurring inside the Earth from the surface to the center of the Earth are analyzed using physical methods and interpretations such as gravity, wave propagation, electricity and magnetism, and heat transfer.
