COURSE DETAIL

RESEARCH FRONTIERS IN GEOGRAPHY
Country Ireland
Host Institution Trinity College Dublin
Program(s) Trinity College Dublin
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Geography
UCEAP Course Number 152
UCEAP Course Suffix
UCEAP Official Title RESEARCH FRONTIERS IN GEOGRAPHY
UCEAP Transcript Title RESEARCH FRONTIERS
UCEAP Quarter Units 5.00
UCEAP Semester Units 3.30

Course Description

This course helps students refine their ability to understand and interpret research from across the discipline of geography and develop their capstone project. It assists students in developing evidence-based opinions about research and assists them in identifying how they can help to push forward research frontiers through their own research activities. Following introductory lectures on the research process the course involves reading research papers and identifying questions about them; participating in seminars given by geography researchers presenting a research project they have been involved with that relates to the papers they read; discussions about opportunities and challenges when conducting geographical research; and reflections on what they have learnt about the research process through the course. Students also practice their own writing skills.

Language(s) of Instruction
English
