UCEAP Course Suffix
UCEAP Official Title ENVIRONMENT AND SOCIETY
UCEAP Transcript Title ENVIRONMENT&SOCIETY
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course examines various environmental challenges in contemporary societies from a sociological perspective. Recognizing that environmental problems are often intricately connected with the conditions of societies that they are situated in, it explores the processes underlying social and environmental changes as well as the consequences that those processes may entail at national, regional, and global levels. Substantive topics to be covered include limits of growth and development, sustainable production and consumption, climate change and global governance, and environmental movement.
