8.00

UCEAP Semester Units
5.30

Course Description

This course explores a series of key issues related to the spatial production and negotiation of socio-political power in early complex societies in Western Asia and the East Mediterranean between ca. 3500 and 330 BC. The course draws primarily on archaeological survey evidence and historical and iconographic sources to examine the spatial constitution of political power in comparative cases of state-formation and imperial expansion and resistance.

Language(s) of Instruction
English
