4.50

**UCEAP Semester Units**

3.00

## Course Description

This course provides a rigorous treatment of the core concepts and skills in security investments and portfolio management. The main focus is on the trade-off between risk and return, which will be analyzed in a mean variance framework. Along this line, two main theories of asset pricing will be explained: the Capital Asset Pricing Model and Arbitrage Pricing Theory. The empirical tests of these two theories will also be discussed.
