Course Description

The course helps students from diverse backgrounds to understand modern China and its historical roots. Focusing on topical aspects of China's past and history, this course provides a bird's-eye view of China's modern transformations. Topics include political regimes, industrialization, economic structures, languages, urban development, rural society, family and population, environmental protection, and climate change. Through a variety of textual and visual learning materials, students acquire the basic conceptual and comparative tools to appreciate the rise of China within historical and global contexts.
