UCEAP Transcript Title CULTURE&TECHNOLOGY
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

What is culture? What is technology? How are the two related? What is our relationship with each or both? How do we live in a culture surrounded by technological objects, artifacts, structures, and institutions? How does technology change culture, and vice versa?

This course is designed to provide students with the theoretical tools to begin asking questions for themselves and seeking better answers. The course examines key themes in technology studies that involve the social, political, economic, and cultural contexts in which technological artifacts, services, and platforms are produced, distributed, networked, and used.

Language(s) of Instruction
English
