UCEAP Quarter Units 12.00
UCEAP Semester Units 8.00

Course Description

This course examines European Gothic architecture from its origins in 12th-century France to the end of the Middle Ages. It focuses on ecclesiastical architecture, and on English and French Gothic, for it is in these fields that the growth and formal development of the style is best understood. Military, civic, and domestic architecture is examined, and individual lectures are devoted to Gothic architecture in Scotland, Germany, the Low Countries, Spain, Italy, and Central Europe.
