COURSE DETAIL

HUMAN ADAPTATION TO CLIMATE CHANGE AND VARIABILITY
Country Denmark
Host Institution University of Copenhagen
Program(s) University of Copenhagen
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Geography Environmental Studies
UCEAP Course Number 165
UCEAP Course Suffix
UCEAP Official Title HUMAN ADAPTATION TO CLIMATE CHANGE AND VARIABILITY
UCEAP Transcript Title HUM ADAPT/CLMT CHNG
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course investigates how human societies adapt to climate change and variability. Central concepts and theories in current adaptation research are presented and discussed using case studies from different parts of the world. In doing so, central actors, policies, and management strategies are analyzed. This includes private and public stakeholders and institutions, and adaptation strategies and initiatives at different geographical scales (local, regional, national, and supranational).

Language(s) of Instruction
English
