ORGANIC CHEMISTRY

**UCEAP Transcript Title**

ORGANIC CHEMISTRY

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

This course takes an in-depth view of organic chemistry using structures and reactivities exhibited by important molecules in everyday life. Students learn, refresh and cement key concepts in organic chemistry, particularly reactions involving polar mechanisms, and acquire knowledge and hands-on experience in molecular and structural characterization, while at the same time appreciating the intrinsic relevance of organic chemistry in existence and daily lives. The course requires students to take prerequisites.

## Language(s) of Instruction

English

## Host Institution Course Number

CM2122

## Host Institution Course Title

ORGANIC CHEMISTRY
