Course Description

This course aims to explore a set of important issues about the theory and practice of democracy. The first part of the course will examine the challenge of meritocracy and various justifications of democracy, including those offered by Mill, Rousseau, Schumpeter, and others. The second part will address some of the most pressing problems facing liberal democracies today: how to improve the quality of public deliberation in the age of social media? How to overcome the challenges posed by populism? How to maintain the efficacy of democratic institutions in a global capitalist economy?
