UCEAP Transcript Title GLOBAL HEALTH POLCY
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

This course examines the politics and practices of global health. The course introduces students to the key interdisciplinary concepts used to understand global health policy. Exploring a variety of case study examples drawn from across the world, the course then examines global health policy and governance structures, health systems, and issues of inequality and justice in global health. Through perspectives drawn from the social and political sciences, this course provides students with the skills to analyze current and emergent global health policy challenges.
