UCEAP Official Title GEO-ENVIRONMENTAL POLICY AND PLANNING FOR SUSTAINABLE FUTURES
UCEAP Transcript Title GEO POLICY&PLANNING
UCEAP Quarter Units 8.00
UCEAP Semester Units

5.30

Course Description

This course involves student-led research and dissemination around contemporary environmental topics e.g. renewable energy, food security etc. Working in groups, students explore an issue or problem, undertake research on it, and communicate their work in a form accessible to non-academic audiences e.g. a policy note or a science communication piece. This helps students to develop key graduate attributes and consider their own employment prospects beyond the academy.

Language(s) of Instruction
English
