3.00

### **Course Description**

This course builds upon the concepts studied in INTRODUCTION TO ECONOMICS A and introduces business strategies. The course covers cost calculations, market structures, firms' decision making, supply chains and such other topics.

The regular version of this course is worth 3.0 UC quarter units. The Q version of this course is worth 4 or 4.5 UC quarter units. Students must submit a special study project form which outlines the requirements for the additional units. This is typically an additional paper graded by the instructor of the course.
