## **COURSE DETAIL**

# ANIMAL PHYSIOLOGY

## **Country**

United Kingdom - England

#### **Host Institution**

University of Manchester

## Program(s)

University of Manchester

#### **UCEAP Course Level**

**Upper Division** 

## **UCEAP Subject Area(s)**

**Biological Sciences** 

## **UCEAP Course Number**

168

#### **UCEAP Course Suffix**

#### **UCEAP Official Title**

ANIMAL PHYSIOLOGY

## **UCEAP Transcript Title**

ANIMAL PHYSIOLOGY

## **UCEAP Quarter Units**

4.00

#### **UCEAP Semester Units**

2.70

## **Course Description**

In this course, students study animal physiology, emphasizing how to compare and contrast the physiological processes across different animal groups that govern their day-to-day function. Students gain an appreciation of how response strategies are used to cope with different external environments and how physiological plasticity is key to maintaining and adjusting physiological processes in terrestrial and aquatic animals.
