UCEAP Semester Units

4.00

Course Description

This course develops students' knowledge of the key microeconomic issues facing developing economies, and deepens their familiarity with modern analytical and empirical approaches to development economics with an emphasis on the most recent advances in the field. Students also learn about the use of formal microeconomic modelling in development, the links between formal models and empirics, and the seminal debates in development. Students must have taken a microeconomics course prior to enrollment.

Language(s) of Instruction
