4.50

UCEAP Semester Units
3.00

Course Description

This course provides students with an understanding of the origins, main features, and impact of the Jacobite movement, and places Scotland's experience of Jacobitism within its wider British and European context. It seeks to deepen historical and transferable skills already acquired or to assist students coming to history as a discipline for the first time. Students look at the societal changes that occurred in Scotland in the 18th century, the Jacobite rebellions and the Enlightenment period, and learn how to collect, evaluate, and use sources to support a historical case and evaluate conflicting historical interpretations.
