Course Description

This course systematically introduces the core issues and cutting-edge research problems of international sinology. Through case analysis and in-depth theoretical discussion, this course teaches the academic methods and theoretical framework of international sinology and introduces historical methods on society, material, thought, literature, and multidisciplinary and cross-cultural comparison. The main content includes but is not limited to research topics such as ancient history, literature, anthropology, and ancient China from a cross-cultural perspective under international sinology.
