UCEAP Transcript Title SOC SECURITY JAPAN
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

In developed countries, social security expenditures, such as public pension, health care and long-term care, account for a substantial part of the total expenditures of the public sector. The design of the social security system is an important policy issue in Japan, which is facing a rapidly aging population with a declining birthrate, as well as skyrocketing public debt. This course provides an overview of Japan's social security system and the economic theories behind the system.
