Course Description

This course focuses on a selection of readings from the Greek Old Testament, Greek New Testament, and other Greek writings of the Hellenistic and Roman periods, along with some elements of advanced grammar and vocabulary. The syllabus changes from session to session but incorporates a range of koine Greek texts. These typically involve a selection from the Septuagint (LXX), the Greek New Testament, the Apostolic Fathers, the Apologists, and other early Christian writers, with a focus on the New Testament Apocryphal Gospels and other non-canonical texts.
