PROGRAMMING LANGUAGE

**UCEAP Transcript Title**

PROGRAMMING LANGUAG

**UCEAP Quarter Units**

4.50

**UCEAP Semester Units**

3.00

## Course Description

This course covers programming language concepts, not as paradigms but as a set of basic building blocks, by using the Scala programming language to implement interpreters for the concepts.

Students will learn how to learn new languages quickly and how to evaluate various languages and pick the most suitable one for a given task. The course also explores how to know when and how to design language, and how to understand the effects of languages on thought and communication.

### Language(s) of Instruction

English
