COURSE DETAIL

CELLULAR AND DEVELOPMENT NEUROBIOLOGY

Country
United Kingdom - England

Host Institution
University College London

Program(s)
University College London

UCEAP Course Level
Upper Division

UCEAP Subject Area(s)
Biological Sciences

UCEAP Course Number
146

UCEAP Course Suffix
N

UCEAP Official Title
CELLULAR AND DEVELOPMENT NEUROBIOLOGY

UCEAP Transcript Title
CELL&DEV NEUROBIO

UCEAP Quarter Units
6.00

UCEAP Semester Units

4.00

Course Description

The course explores how this complex organization of hundreds of cells emerges during embryo development. The course focuses on the precise organization of tissues that arises during embryo development by the coordinated control of the differentiation, migration, proliferation, and death of cells. It provides a solid grounding for future specialized study of nervous system development, function, and repair.

Language(s) of Instruction
English

Host Institution Course Number
CELL003

Host Institution Course Title
