

COURSE DETAIL

CELLULAR AND DEVELOPMENT NEUROBIOLOGY

Country

United Kingdom - England

Host Institution

University College London

Program(s)

University College London

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Biological Sciences

UCEAP Course Number

146

UCEAP Course Suffix

N

UCEAP Official Title

CELLULAR AND DEVELOPMENT NEUROBIOLOGY

UCEAP Transcript Title

CELL&DEV NEUROBIO

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

The course explores how this complex organization of hundreds of cells emerges during embryo development. The course focuses on the precise organization of tissues that arises during embryo development by the coordinated control of the differentiation, migration, proliferation, and death of cells. It provides a solid grounding for future specialized study of nervous system development, function, and repair.

Language(s) of Instruction

English
