Upper Division

UCEAP Subject Area(s)
Computer Science

UCEAP Course Number
128

UCEAP Course Suffix

UCEAP Official Title
INTRODUCTION TO COMPUTER NETWORKS

UCEAP Transcript Title
INTR COMP NETWORKS

UCEAP Quarter Units
4.50

UCEAP Semester Units
3.00

Course Description

This course provides sound understanding of fundamental concepts and emerging problems in networking and provides training in network programming. Students will learn how to explain in detail how a piece of information travels through the Internet and reaches the other side of the world.

Topics include emerging issues around the Internet, basic network programming for sockets, TCP, and routing. Prerequisite: basic programming skills in C/C++.

Language(s) of Instruction
English
