Course Description

This course aims to help students master the fundamental principles and methods of quality management. Through practical case studies, students will develop the ability to apply their knowledge to analyze and solve real-world problems. Additionally, the course will guide students to adopt a global perspective, fostering a leadership and managerial mindset. Students will enhance their ability to identify, break down, and solve problems. Through systematic thinking training, students will understand the importance of structure, rules, and attitude in quality management, laying a solid foundation for their future career development.
