Environmental Studies

UCEAP Course Number

123

UCEAP Course Suffix**UCEAP Official Title**

GLOBAL CLIMATE CHANGE

UCEAP Transcript Title

GLOBAL CLIMATE CHNG

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

This course provides fundamental information on climate dynamical processes and how we study them - currently and in the past. The course examines both strengths and limitations of terrestrial and marine proxy climate records used to study past climate of the late Holocene and Quaternary as well as introducing students to the fundamentals of modelling the climate system.

Language(s) of Instruction

English
