UCEAP Semester Units

4.00

Course Description

This course focuses on the afterlife of a selection of controversial tragedies, which shocked their original audiences in Elizabethan and Jacobean London as much as they continue to challenge and entertain us today, both on the contemporary stage and on screen. The course focuses equally on the original context within which these tragedies were first written and performed, and on the history of their reception, with special emphasis on cinematic adaptations spanning over the late 20th and the early 21st centuries.
