

COURSE DETAIL

CELL MEMBRANE STRUCTURE & FUNCTION

Country

United Kingdom - England

Host Institution

University of Manchester

Program(s)

University of Manchester

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Biological Sciences

UCEAP Course Number

124

UCEAP Course Suffix

N

UCEAP Official Title

CELL MEMBRANE STRUCTURE & FUNCTION

UCEAP Transcript Title

CELL MEMBRANE STRUC

UCEAP Quarter Units

4.00

UCEAP Semester Units

2.70

Course Description

This course provides an understanding of the structure, organization, and function of cellular membranes. Particular emphasis is placed on membrane composition and organization, and involvement of membranes and membrane proteins in ion and solute transport, signal transduction, and vesicular transport. Diseases that arise from defects in these processes are used to exemplify the importance of this topic to life science.

Language(s) of Instruction

English
