Course Description

This course introduces the concept of organizational behavior exploring the individual, group, and organizational dynamics within the workplace. The course provides a comprehensive understanding of the factors which influence human behaviors in organizations, and how these behaviors impact individual and organizational outcomes. Through exposure to a combination of theoretical concepts, real-world case studies, and practical applications, the course develops valuable insights and skills to effectively navigate the complexities of the modern workplace. The course is based on readings and case studies of companies around the world, with special attention to regional, national, and global contexts.
