UCEAP Course Suffix
UCEAP Official Title GOVERNMENTAL REGULATION
UCEAP Transcript Title GOV REGULATION
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course provides a theoretical examination of government regulations exploring their necessity in the context of market and government failures. It delves into the various types of regulations, how they function, and their impact across different sectors. Additionally, the course discusses the role of government-market interactions in national development.

Students will gain insight into the foundations of regulatory frameworks and the government's function within them; comprehend the economic principles and theories that underpin government regulations; recognize various forms of market and government failures along with appropriate remedial actions; explore different categories of economic and social regulations, examining real-life cases both domestically and internationally; conduct in-depth analyses of regulatory instances, discerning their impacts and challenges based on these evaluations.
