UCEAP Transcript Title ENV/SUSTAIN/DEVELOP
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course examines how the idea of sustainable development has emerged as an effort to redirect economic growth to produce more socially just and environmentally benign outcomes. It covers how human-environment interconnections, across different scales and in different contexts, come together to demonstrate how environmental issues are situated in, and shaped by political and economic contexts.
