**UCEAP Semester Units**

3.30

## Course Description

This course introduces students to global mental health from a critical perspective, with a particular focus on contextual constructions of mental illness, mental health programming in low resource and humanitarian settings, and for marginalized populations. The course covers global differences in definitions and incidence of psychiatric disorders, the validity and effectiveness of mental health and psychosocial support (MHPSS) interventions, and the wider role of power and inequity in shaping national mental health policies and international guidelines.
