UCEAP Semester Units

3.30

Course Description

This course introduces the theory of performance, analyzing how an understanding of performance in everyday life, and in culture, gives a context for the study of performance in theater. Students learn basic tools of performance analysis, to develop the practice of analysis in practical sessions, and to discuss lecture materials in small group teaching. The course offers an introduction to ways of examining, reflecting on, and critically evaluating the phenomenon of performance in a highly technologized and globalized world.
