INTERNATL RELATIONS

**UCEAP Quarter Units**

4.50

**UCEAP Semester Units**

3.00

### **Course Description**

This course provides the conceptual keys and analytical frameworks essential to better understand the main contemporary international issues. It explores, from a political sciences perspective, three classic themes of international relations: the diversity of actors on the international scene; the transformation of conflict and security; and the challenges posed by globalization. This is not an introductory course, as the approach is firmly focused on a selection of topical issues and the scientific debates they raise.

### **Language(s) of Instruction**

French
