UCEAP Transcript Title

DEV/CLINICAL TRIALS

UCEAP Quarter Units

3.00

UCEAP Semester Units

2.00

Course Description

This course provides an overview of how clinical research is conducted, from the identification of molecules with potential therapeutic interest to their approval by regulatory entities and the publication/dissemination of results to the scientific community. Through lectures, practical sessions, and practical problem-based learning, the various phases of clinical trials are explained in detail, using real examples.

Language(s) of Instruction

English
