UCEAP Quarter Units 5.00
UCEAP Semester Units 3.30

Course Description

This course equips students with the knowledge and skills needed to foster socio-emotional development, enhance teamwork, and embrace digital competence in educational settings. Through a blend of theory, practical application, and collaborative exercises, students gain a comprehensive understanding of how these elements interplay to create an enriched learning experience. The course has three main topics. One is to help students to become an advocate of emotional education, understanding and regulating emotions, and providing emotional support and resilience within educational organizations. Students learn skills in emotional expression, understanding, and regulation. The second topic is the importance of teamwork and collaborative work, focusing on the dynamization of groups, group observation, and essential social skills in educational contexts. Through networking, communication, and the use of digital tools, students learn to work effectively within educational teams. Lastly, students develop the skills to master digital technologies in education, conceptualizing digital competence, and utilizing digital resources for teaching, learning, and professional development. The course explores digital resources for teaching and learning, digital content, evaluation and feedback, and professional development with digital technologies.
