COURSE DETAIL

APPLIED MACHINE LEARNING IN ENGINEERING

Country
Germany

Host Institution
Technical University Berlin

Program(s)
Technical University Berlin

UCEAP Course Level
Upper Division

UCEAP Subject Area(s)
Computer Science

UCEAP Course Number
110

UCEAP Course Suffix
D

UCEAP Official Title
APPLIED MACHINE LEARNING IN ENGINEERING

UCEAP Transcript Title
APP MACHINE LEARN

UCEAP Quarter Units
5.50

UCEAP Semester Units

3.70

Course Description

All engineering disciplines today employ machine learning for monitoring systems and fault detection, for data-based decision support as well as for leveraging new potentials in the environment of big data. This module teaches the fundamentals of standard machine learning techniques as well as their implementation using standard libraries in the Python programming language based on real-world engineering examples. It focuses on the complete data science process from data exploration over modeling to inference and production.

Language(s) of Instruction
English

Host Institution Course Number
#51049 / #4

Host Institution Course Title
APPLIED MACHINE LEARNING IN ENGINEERING
