UCEAP Transcript Title QUANT TXT ANALYS IR
UCEAP Quarter Units 4.50
UCEAP Semester Units

3.00

Course Description

This course offers an in-depth exploration of quantitative text analysis methods for studying international relations. Students engage with advanced computational techniques, including text classification, topic modeling, and network analysis, to systematically examine textual data. The class places emphasis on methodological rigor, critical interpretation of results, and the application of these tools to address key research questions in the field. It is designed to equip students with the skills needed to conduct independent research using text as data.
