SEPARATION PROCESSES 2

Country

United Kingdom - England

Host Institution

Imperial College London

Program(s)

Imperial College London

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Chemical Engineering

UCEAP Course Number

165

UCEAP Course Suffix**UCEAP Official Title**

SEPARATION PROCESSES 2

UCEAP Transcript Title

SEPARATION PROCES 2

UCEAP Quarter Units

5.00

UCEAP Semester Units

3.30

Course Description

This course builds upon the knowledge and understanding gained by the students in the Separation Processes 1 course. This is achieved by both broadening the content to encompass a wider range of separation processes and deepening the student's understanding of the processes covered in Separation Processes 1. This is primarily achieved by building upon knowledge of distillation and extraction processes and design, introducing more complex variables and via the introduction of new separation processes such as adsorption.

Language(s) of Instruction

English
