**UCEAP Transcript Title**

ENRGY INFRA & TERRI

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

## Course Description

The course introduces basic concepts of energy and the understanding of its territorial deployment, along with a critical and innovative look at its implications (risks and opportunities) in terms of sustainability, as well as the role that energy plays in the development of various territories and their inhabitants. The course will combine expository classes, case studies and collaborative learning, along with group studies and presentations on contingent cases, which reveal a reflective approach from the students' various disciplines.

## Language(s) of Instruction

Spanish

## Host Institution Course Number

IEU2067
