Course Description

This course is part of the Laurea Magistrale degree program and is intended for advanced level students. Enrollment is by permission of the instructor. This course is meant to provide theoretical concepts and managerial tools to (a) understand and analyze the main models underlying organizational behavior and people management; (b) develop and increase critical skills in decision making through the analysis of the impact of theories; c) identify problem solving approaches through discussion of case studies.

The course is divided into 3 parts: The Individual in Organizations; Group and Team Processes; Power, Politics and Conflicts.

At the end of the course, students: know the salient characteristics of individuals, work teams, and organizational processes that influence organizational performance in face-to-face and virtual work settings; are capable of analyzing risks and opportunities of different work designs, managing complex decision processes, and detecting and implementing strategies to solve organizational conflicts, particularly in globally distributed teams.
